

Laird Plastics Government Line Card

Laird Plastics is the leading independent plastics distribution, manufacturing and recycling solution provider with over 50 locations across the United States. For more than 30 years Laird has specialized in comprehensive supply chain coordination, supplying a complete range of semi-finished and finished plastic products. Laird Plastics partners with many of the leading manufacturers by channeling their products to key markets; government and national defense, security, construction, medical, food and beverage, transportation, graphics and OEMs. Our customers include various small business concerns including Woman-Owned, HUBZone and Service-Disabled Veteran-Owned small businesses.

Laird's Government Sales Division is staffed by leading plastics industry experts and former federal government warranted contracting officers to partner with your agency or office to ensure specifications and timelines are met.
